FULL HOME RENOVATION

Copenhagen, Denmark

Eli is a traveling chef, Katie is an student Designer, and Finn is a beautiful golden eight year old retriever. This couple and their pup just bought themselves a home away from home in Copenhagen, Denmark. Due to fire damage, this place needs it all. They hired Church House Design knowing we specialize just that, beautifully tailored transformations.

This new custom floor plan orbits around a centered fireplace, as a nod to the couples favorite local restaurant, Noma. This design began with lines, light, and local cuisine.

It's a no rules take on Danish meets Deco, where the diva is the details.

KITCHEN & BATH RENOVATION

Boring, Oregon

Mike and Lisa live a sweet semi-retired life in the country.

They love keeping it simple for 2 in the kitchen,
with Mike's occasional large family gathering,
and Lisa's impulsive baking binges.

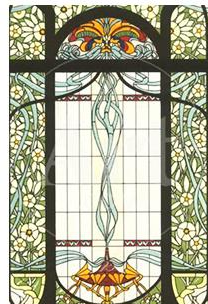

Lisa has a lust for all things red, especially the old barns on their farm.

Mike feels most at ease in a timeless no fuss
environment ruled by wood tones, windows, and symmetry.

Their kitchen and guest bath feel old, dark, and worn out.

Little did they know that their
'opposing' styles create the perfect family recipe.

This design called for the science of symmetry and the romance of
nature in a bespoke space just for them.

SAGE

Day Spa
Austin, Tx

In 2020, Robin McSmith found herself spread too thin. On her 50th birthday she throws herself a Closeted-Health-Guru Coming-Out-Party and announces the expansion of her most satisfying venture to date; her small yet successful day-spa she opened 15 years ago in her hometown of Austin. She is big on her new branding, has passion for doing her part in saving the planet, loves the high vibes of Austin, and each of the customers she serves. We'll be dividing this 1800 sqft space into a lobby, waiting lounge, and 4 new treatment rooms with flow to the existing space. We will take into account the needs of ADA clients and requirements of local code.
