CONCEPT STATEMENT:

MAX DONOVAN, DRY CREEK RANCH NEIGHBORHOOD IN BOISE IDAHO

This full remodel in the Dry Creek Ranch Neighborhood in Northwest Boise, ID is a creative's dream.

By emphasizing raw materials, open spaces, and a mix of modern and vintage elements, this industrial earthy modern home will feel both cozy and moody. With its neutral color palette, the design focuses more on contrasting textures and materials rather than color.

The open, airy space blends edgy elements, exposed concrete, metal accents, and reclaimed wood for a look that is both stylish and functional. Adding curated pieces of vintage-inspired furniture and unique light fixtures to clean lines of the architecture, the result is a home that is collected, warm and sophisticated.
