HERITAGE CORE VALUES

- Empower the success of others
- Pursue growth and learning
- Be creative and open-minded
- Be passionate and determined
- Have the courage to change course
- Be humble and collaborative

OUR CORE VALUES

The Heritage School of Interior Design Core Values provide the unchanging principles that guide our educational philosophy, hiring, admission and recruiting practices and our decision making. We aspire to these values and seek to uphold them in our interactions with staff, students and client relationships.

EDUCATIONAL GOALS & OBJECTIVES

The goal of The Heritage School of Interior Design is to prepare you for success in a career as an interior design professional in sales, service or self-employment as an independent Interior Designer.

Interior Designers work with the spatial organization, colors, patterns, textures and harmony that define the space in which we live and work. Students of the program learn how to combine these elements to create a function, mood and style that expresses the individual desires and style of the client.

The interior design program is personalized to ensure a learning environment in which professional goals can be met. While the development of design skills are the primary focus, we believe that other areas deserve equal attention. Customer service, communication skills and styles, professional practices, business procedures, product knowledge, presentation strategies and documentation are covered throughout the program. In order to meet these objectives, a highly individualized mode of instruction with limited enrollment is offered. This creates a learning environment that encourages a professional attitude and habits and meets the individual needs of each student. A complete curriculum outline is available on the website and on the following pages.

The instructors for this program are registered with the Colorado State Board of Higher Education; Division of Private Occupational Schools and are well prepared through their own interior design education and professional experience.

TRAINING OVERVIEW

The Fundamentals of Interior Design Certification Program is scheduled for 12 weeks (Weekday Program) or 24 weeks (Part-time Saturday Program) of classroom “hands-on” participation and study. We encourage time in each class for review, questions and student feedback. We strive to create an open learning environment, providing students with immediate feedback and personal attention.

Weekday and Saturday students have a morning and afternoon break with an hour for lunch. Students may bring their lunch and use the school’s kitchenette. There are many restaurants in the area near the school.

Significant independent study and homework is required throughout the program. The homework increases toward the last weeks of training. Heritage provides the necessary training supplies and resources for design projects as well as check out privileges from the school resource library. These supplies are on loan to each student for class projects and are returned to Heritage at the conclusion of training.

Note: Please do not take on any unnecessary obligations that would create stress while attending school. This training should be your primary focus and not be complicated with outside activities.

The Interior Design Master Certification Program includes completion of the Fundamentals of Interior Design Program plus 9 supplemental courses listed on page 6. It is the most comprehensive training offered through Heritage School of Interior Design.

Please refer to our catalog addendum for more detailed information about all programs and courses, including tuition and fees, dates and times. This information is subject to change on a quarterly basis and is updated regularly in the addendum and on the website.

FINANCIAL HOLD EXEMPTION POLICY

Individuals may be subject to a transcript or certificate hold when such individual owes certain debts to the School for tuition or fees. Individuals will be subject to such a hold when payment for any outstanding amount due has not yet been made to the School. The school will assign a minimum debt of \$500 to a third-party collection agency. If an individual is subject to such a hold, their transcripts or certificates will not be released unless an exemption applies as follows.

Process and Procedure for Exemptions

Exemptions are granted for individuals who can demonstrate that the transcript or certificate request is required for one of the following reasons:

- Job application
- Applying for state, federal, or institutional financial aid
- Pursuit of opportunities in the military or national guard

Upon submission of a transcript or certificate request and documentation to verify an exemption, the School will review the request and make a determination regarding whether or not an exemption exists, as outlined above. If it is determined that the individual has a valid exemption, the School will release the requested transcript and/or certificate. If the School determines that the individual does not meet the exemption criteria, the School will provide a written explanation of the denial of the request within seven business days.

Registration Hold

Individuals will no longer be able to register or enroll for courses/classes if payment for any outstanding amount due has not yet been made to the School. The school will assign a minimum debt of \$500 to a third-party collection agency.

Individuals have the option to establish a payment plan for an outstanding debt. An individual who wishes to establish a payment plan for a debt owed to the School should contact Rhonda Larson at rhonda@heritageschoolofinteriordesign.com.

Complaints pertaining to HB22-1049 may be submitted to the Colorado Student Loan Ombudsperson via email to CSLSA@coag.gov.

ACADEMIC POLICIES

TRANSCRIPTS

Students receive a copy of their program transcript at graduation. The school will require the student to have their tuition and all fees paid in full prior to receiving their transcript from the school.

Students receive progress reports from the instructor or executive director at mid-term based on academic performance. A grade below 70% on any given assignment is considered a "no pass".

90 - 100% = A
